

## NBN Rollout and Find A Cabler

The NBN is coming to a suburb near you or your customers this year. This will mean an upsurge in business for contractors who undertake cabling in the next 12 months. Make sure your business doesn't miss the boat by registering your business on the Find A Cabler website at [www.registeredcables.com.au](http://www.registeredcables.com.au)

There will be 10 million premises connected to the NBN over the next 10 years and this represents a great opportunity to expand your business. You can be one of the registered cablers to help consumers get ready to connect to the NBN.

### Registered Cablers Registration Form

☐

Yes, I would like to take up your offer of 12 months free promotion on the "Find A Cabler" map.
